

### Claim Requirements for Claim Submission

- All paper claims **must be typewritten**. Given the differences in handwriting and other factors impacting legibility, we can no longer accept handwritten claims. **DO NOT** handwrite a signature in Box 31. The name must be typewritten as well.
- Paper claims should be submitted on the **UB04, DHS Transportation Billing form**, or the following versions of the **CMS 1500**:
  - Red line forms—these are the “original” forms, not photo copies
  - No line forms—these are available on a variety of websites, and can be printed from QClaims.
- Typed information must be completely within the boxes on the claim form. Information typed directly on the lines will cause errors in processing your claims and could result in claims being denied due to an inability to accurately read the information on the form.

\*Please note: The inability to accurately read the information on the form will result in the claim form being returned to the submitter.

Please refer to the table displayed below as a quick reference. The table displays the information required on a claim submitted to the EICBO and the appropriate box to present the information in. The format in which the information should be displayed is listed as well. Review the EI-CBO Billing Information for Providers document for a complete listing of billing requirements.
